- HTML5
- CSS3
- JavaScript (ES6+)
- API integration
- Tailwind CSS
- Git & Github
- Vite
- Material UI
- Responsive Design
- SQL

Soft Skills

- Problem-solving
- Teamwork & Collaboration
- Time Management
- Attention to Detail
- Quick Learner / Adaptable

Projects

Todo-list Web App

Built a simple and interactive Todo App using React.js and Material UI. Users can easily add, edit, and delete tasks, and the app adapts well to different screen sizes. This project helped me practice responsive design and create a smooth, user-friendly interface

Weather Web App

Created a simple weather app using React.js and Axios that shows real-time weather for any city. Users can view today's weather as well as a five-day forecast. Designed a clean and easy-to-use interface that works smoothly on all screen sizes. This project helped me practice API integration and responsive design.

Portfolio Web app

Crafted a responsive portfolio using HTML, Tailwind CSS, and JavaScript, featuring seamless light and dark mode support. The site adapts beautifully across devices, offering a clean and interactive showcase of my web development skills and recent projects.
